<b>Company</b>	PRIRODA LIJEČI d.o.o.
<b>Address</b>	Vlaška 40, Zagreb 10000, Hrvatska
<b>Representative/s</b>	Ms. Nika Brlečić phone: +385 91 4814 152 fax: +385 1 4814 033 e-mail: <a href="mailto:info@nikel.com.hr">info@nikel.com.hr</a> web: <a href="http://www.nikel.com.hr">www.nikel.com.hr</a>
<b>Field of activity</b>	<p>The company "Priroda liječi" ("Nature cures") was established in 1995. At two addresses in the very heart of Zagreb - one at Tomašićeva 3 and one at Stara Vlaška 40, which is also the company headquarters, it is not only a specialised shop for non-prescription medications and medical products but also a pharmaceutical centre and, in cooperation with distinguished dermatologists, a pharmaceutical-cosmetological counselling centre. In 2004, Master of Pharmacy Mirjana Brlečić, director and owner of the company "Priroda liječi" ("Nature cures"), initiated the production of a natural cosmetics line - Nikel.</p> <p>How was the Nikel line created?</p> <p>Pharmacy is my vocation and profession, and my special interest is cosmetology. I started experimenting with cosmetics during my student days. Taking the COSMETOLOGY course in my fourth year at the University of Zagreb Faculty of Pharmacy and Biochemistry opened my eyes to new perceptions and knowledge in the area of cosmetic preparations as well as their advantages and disadvantages.</p> <p>After many years of researching and practising pharmacy, phytopharmacy and cosmetology and based on the experience of working in my own pharmacies and having insight into other cosmetic products as well as the problems my clients were having due to recurring allergic reactions to multiple ingredients of preparations for skin and body care, my wish was to create natural cosmetics free of preservatives and unnecessary additives, artificial colours and fragrances - HEALTHY cosmetics with 100% natural active ingredients and cosmetics that would be available to all people, designed not just to nurture the skin but also to help eliminate skin problems. That is how a pharmacist created the Nikel® line. The line consists of 63 products, many of which are classified as cosmeceutical products approved by the Croatian Ministry of Health and Social Welfare of the Republic of Croatia. This shows that it is not just a question of skin care but also of catering to the special needs of the skin regardless of the problem: cellulite, excessive accumulation of subcutaneous fat, seborrhoea, pimples, sensitive or damaged skin, allergies, dilated capillaries and so on.</p> <p>The products are a combination of traditional knowledge and the latest innovations, such as time release ingredients (Nikel Cream with tea-tree), nanomolecules that enable the active component to enter into the deepest layers of the epidermis (Nikel Sensivital Cream for Capillary Strengthening), probiotics used for regeneration and soothing of very damaged skin (Nikel Acidosalus Cream) and the latest addition - plant stem cells for skin rejuvenation.</p>
<b>Interest in doing business in Iran</b>	To meet with: Distributors who are interested in natural cosmetics

51.
